a mug to help elderly women cope with the loss of their partner

# DESIGN GOAL

*I want to make independently living lonely elderly women experience dinner time as if they are with a loved one while actually being alone.*

# INTERACTION VISION

## *Current qualities*

- Indifferent
- Boring
- Unappetized
- Pleasureless

## *Desired qualities*

- Connected
- Appreciated
- Joyful
- Appetized
- Warmth
- Intimate

I want to give lonely elderly women a joyful feeling such as the sensation one feels when the first sun rays tickle your skin in the February sun after a long cold winter.
