

# Connect

A supportive cardset for elderly and child to think about the future: who to ask for help?

Karen Thomson | 4018559

1

## DESIGN GOAL

‘motivate *children* to ask for support from people within their parent’s informal social network’

# INTERACTION VISION

Give trust, support, confidence & security to children in taking the first step in asking for support

# FINDING CYCLE 1

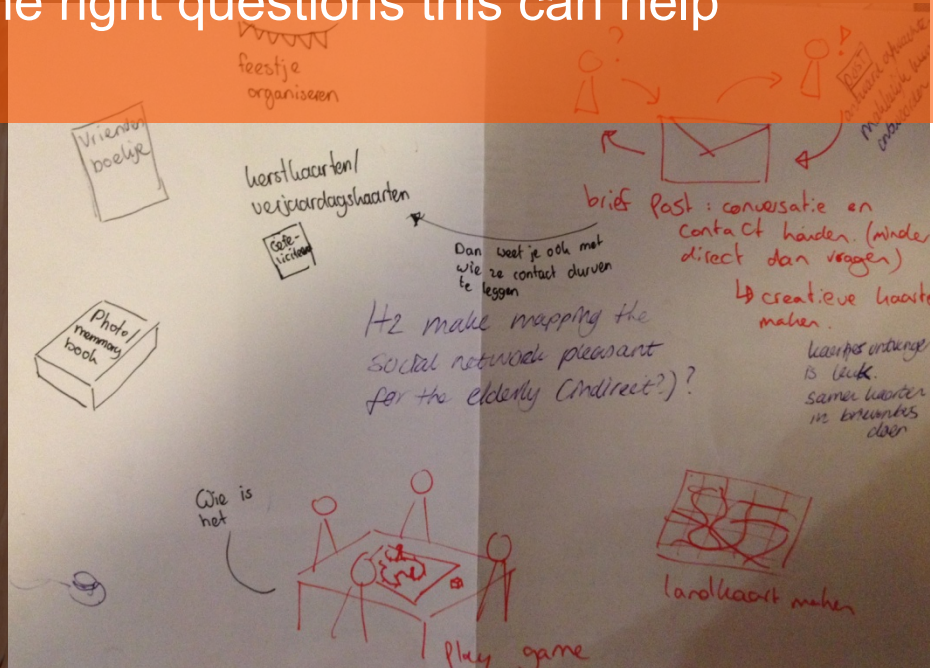

The problem of asking for support

# FINDING CYCLE 2

If children ask their parent the right questions this can help

over voor koffie

**MOVIE**

A woman with glasses is seated at a table, reading a card from a box. The box is wrapped in black and white checkered paper. There are several other cards on the table. The background shows a window with curtains and a plant on a shelf.

# FINAL EVALUATION

Positive feedback from children

# FINAL EVALUATION

Both child and senior felt supported by the cards

# FINAL EVALUATION

Senior was more hesitant. Child felt confident.

# RECOMMENDATION

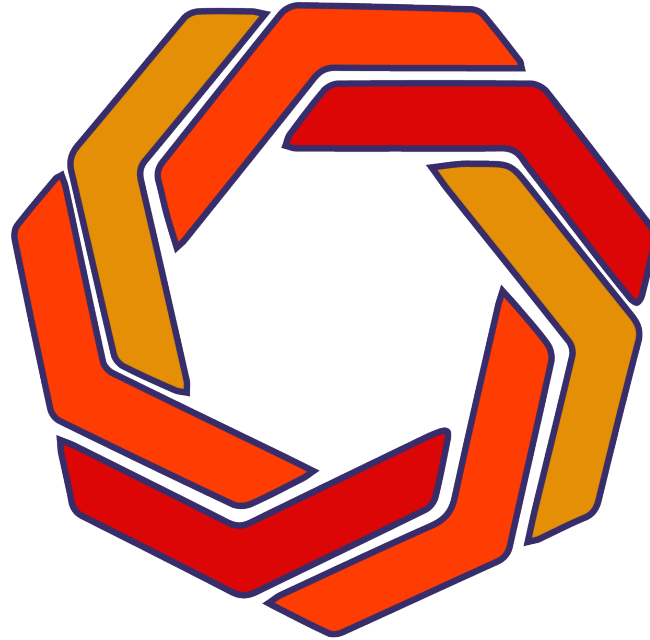

Change sentence of notification reminder

# RECOMMENDATION

...have you approached Peter for an explorative talk?

# Connect

Thank you!
