

### 1. Design goal

## 2. Why & What

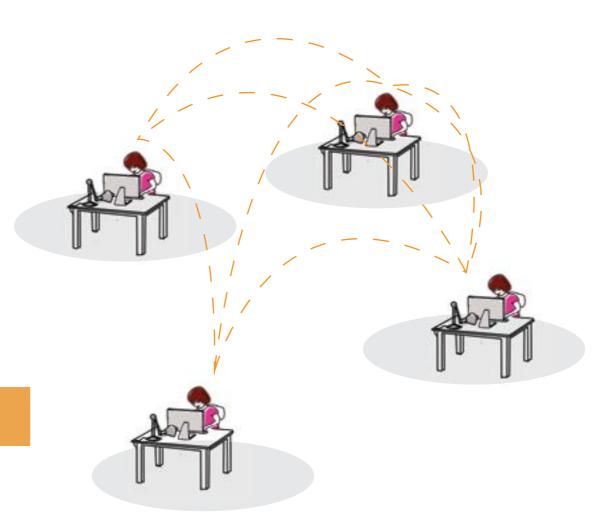

Enrich course

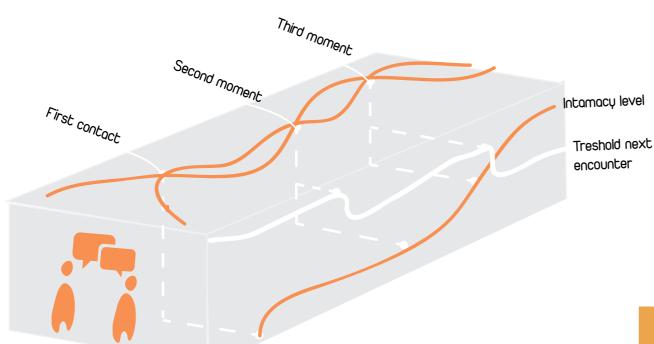

Learn more

Satisfied

Getting to know each other

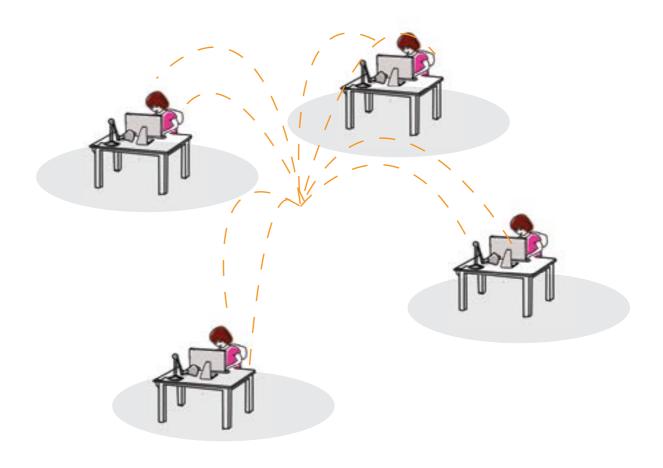

Focus on the facilitating

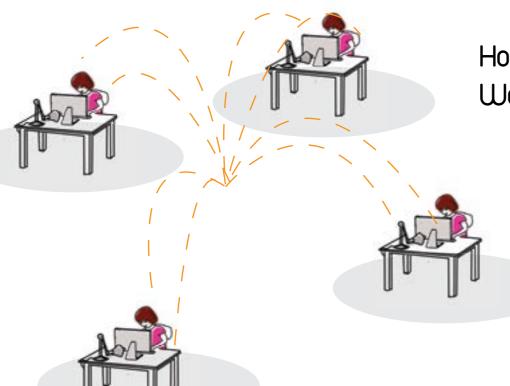

## 4. Study groups

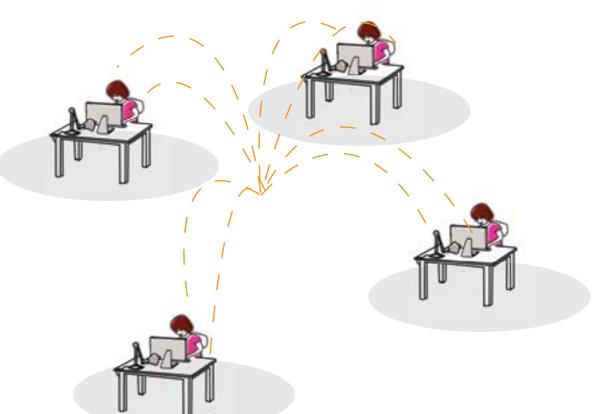

Proximity factor

Efficient relations

How are the groups formed? Wat keeps them active?

### 3. Concept scenario

### This is Kees

Hi, I'm Kees Dijkstra.
I'm going to follow the Delft Design Appraach.
I'm an entrepeneur and graphic desinger and want to know more about a scientific apprach towards design!

Pre course

### 1. Register

#### Pre course

### 2. Form a study group

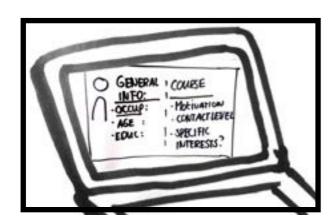

Receive email:

Do you want to join a study group?

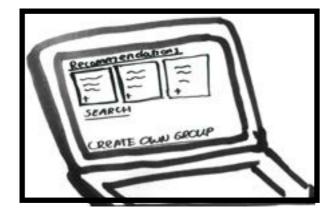

That sounds interesting! I would definiatelly like it when I can join some other graphic designers!

Fill in personal info

- motivation for course
- related interest
- Job etc...

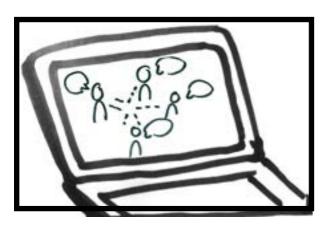

Join or create a group with your preferences.

This is exactly what I was searching!

### Start of course: week 1

### 3. Get to know the group

Trough an icebreak the group members get to know each other

I thought is was a bit scary, but then I met each group member. I'm so excited to start studying with them!

### week 5

### 4. Following the course

Watching lecture

Making test

#### week 5

### 4.2 Weekly thoughts

Reflect on what is just learned

I chose the balloons. I have the feeling that these idea generation method me brings to other places. I think in a whole other direction.

Good ideas, I can als use it for a buisniss meeting.

Reading the weekly thoughts of his group members

### 4.3 Group page

Share intersting articles

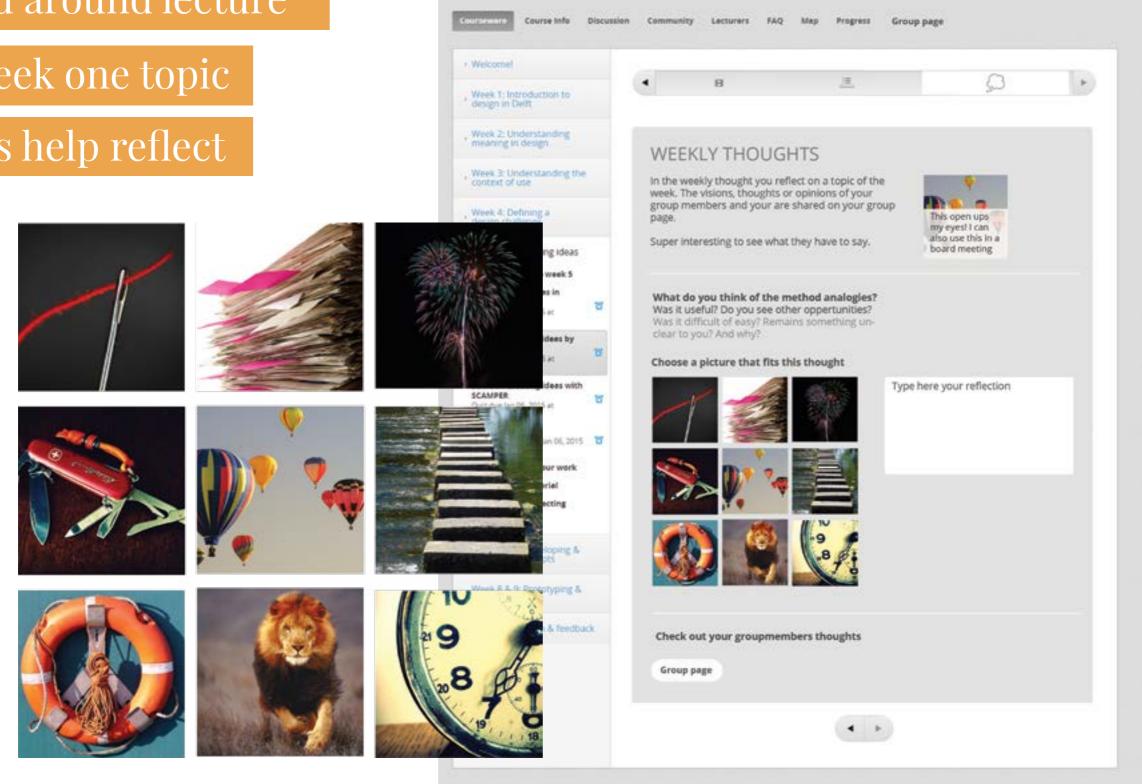

Answer a question of a groupmember

### 6. Weekly thoughts

Situated around lecture

Each week one topic
