

INTERACTION VISION

Insights from research

Most people want more connection with their neighbours but in a subtle, voluntary way

When people know a little bit about one another they are more likely to trust each other

Most people have something to offer or to ask a neighbour (supply and demand)

"It is a modest intervention with a soft way of communicating" - Femke

"Your neighbours changing something in your living room is a bit intimidating" - Eva "Exploring this together could be a great binding experience" - Femke For older / needy people and their neighbour the Buuf can be used as a 'sign of life' or ask something / give help
