

# Design for Train Travels

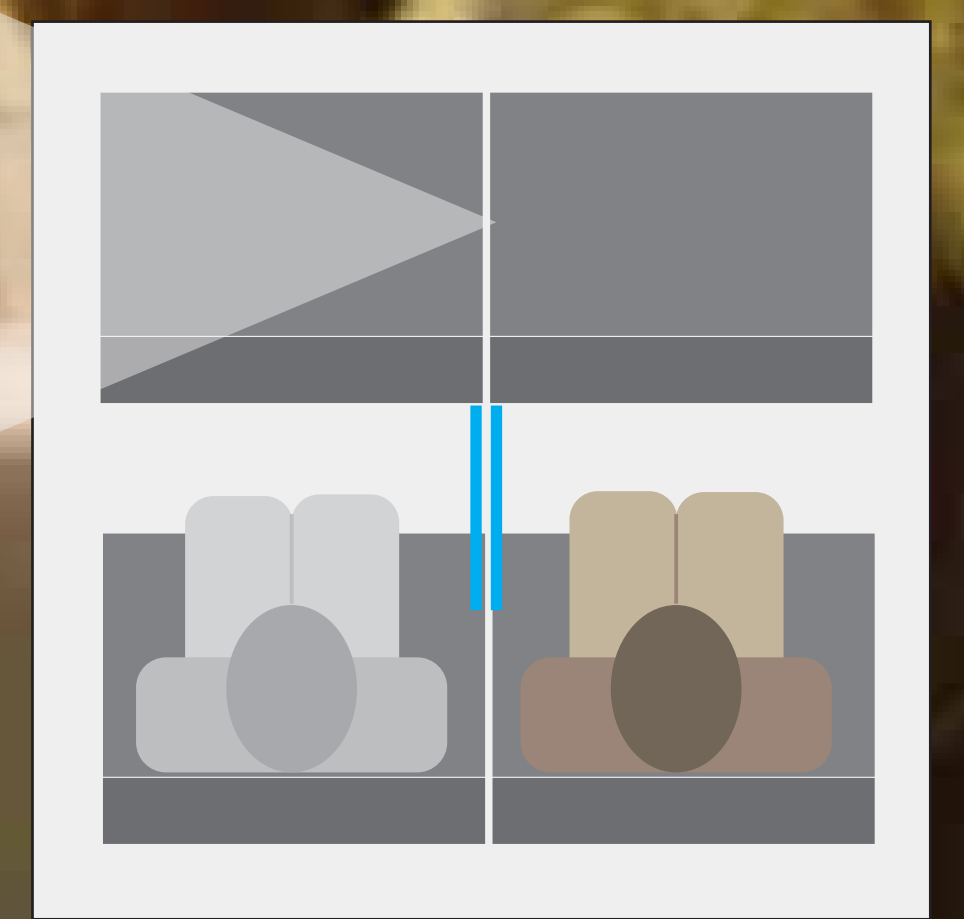

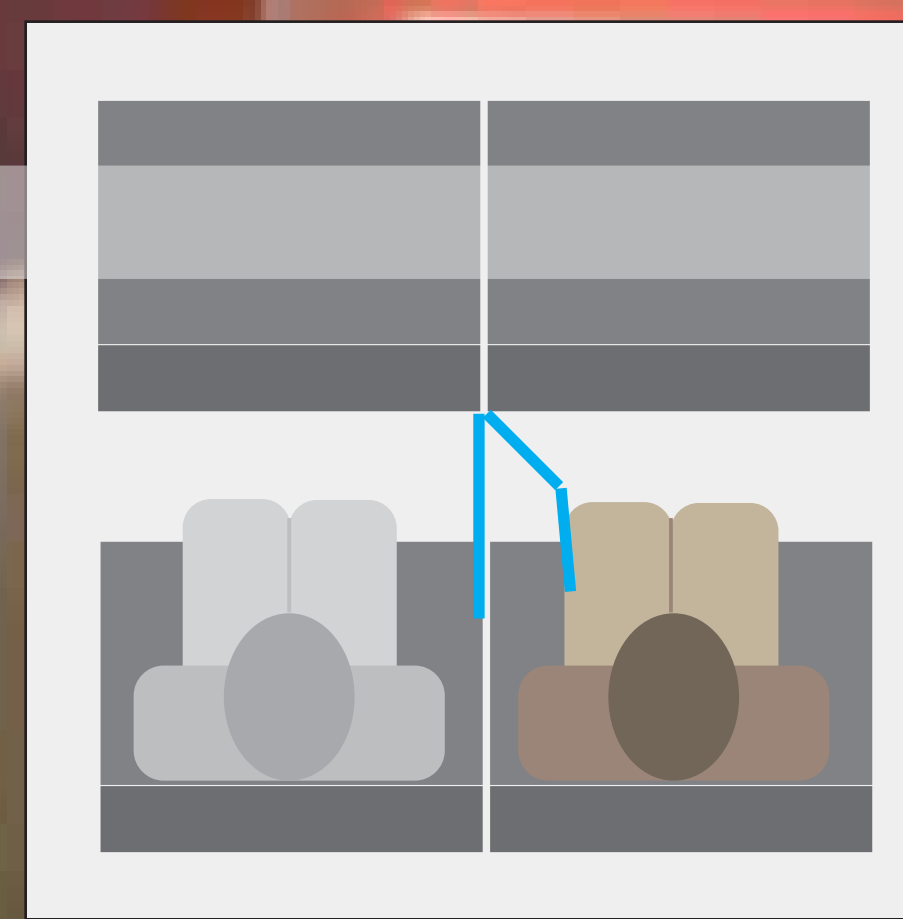

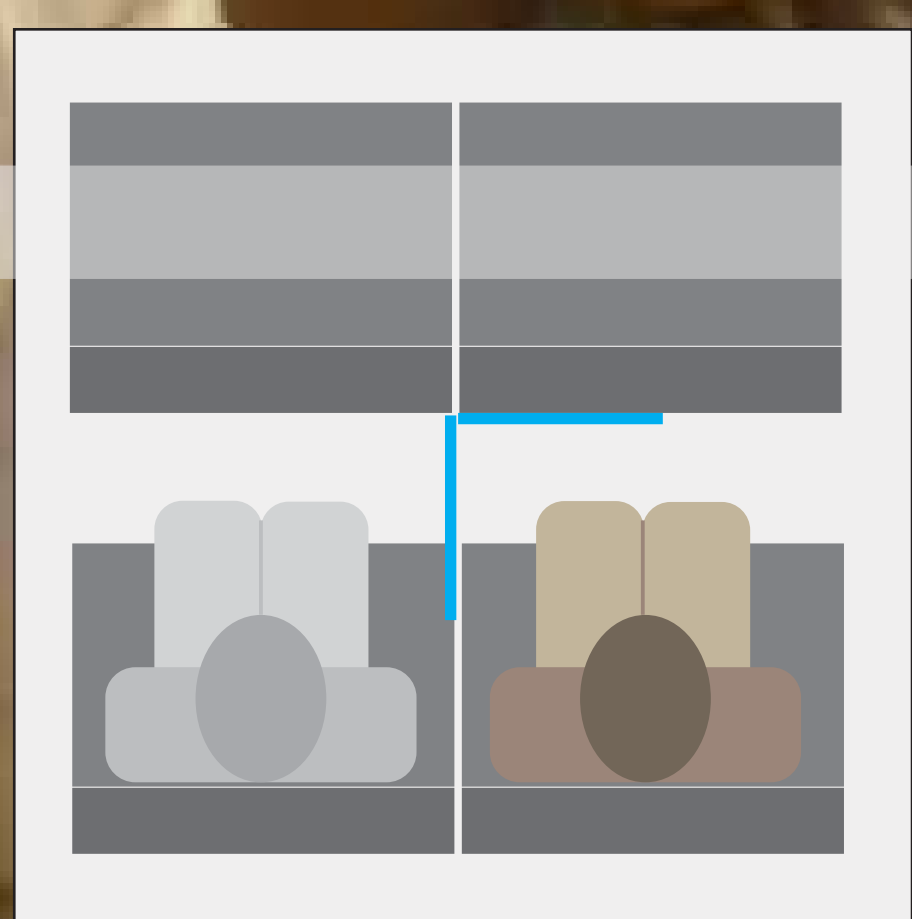

G. Lasamahu | 4170857

Studio Orange  
Tutors: A.P.O.S. Vermeeren  
M.F. Beets

Creates a boundary between two passengers

when both screens are flipped open, the transparency of one screen disappears

Give train travelers a sense of having a personal space, while sitting next to a stranger in an intercity, during the late afternoon rush hour

Design Goal  
Qualities of Interaction  
Secure and respectful

First concept idea

Iterating Session 5

Analyze findings

Second concept idea

New concept idea

Detail tests

Create final concept

Evaluate final concept
