

IN THE PICTURE

Final presentation

Exploring Interactions 2017-2018

Noëlle Lugtenburg | 4216156

Research insights cycle 1

Questionnaire, online research, family discussion

**People generally have
little time to spend with
their family**

Research insights cycle 1

Questionnaire, online research, family discussion

**People generally have
little time to spend with
their family**

Questionnaire, online research, family discussion

**Family members want
more real attention for
each other**

Quality time:

"Just having real attention for each other"

Change:

"More interest in each other"

"More in depth conversations"

Research insights cycle 1

**Focus on 'healthy' families
with young adult children**

Research insights cycle 1

**Focus on 'healthy' families
with young adult children**

**Focus on dinner time;
then families are
generally together**

Research insights cycle 1

Questionnaire, online research, family discussion

Conversations are routinely and superficial, people are caught up in routines

Research insights cycle 1

Questionnaire, online research, family discussion

Conversations are routinely and superficial, people are caught up in routines

Contextmapping

There is a need for more in depth conversations

Research insights cycle 1

Contextmapping

Role between parents and children change, need for sharing more things

Research insights cycle 1

Contextmapping

Role between parents and children change, need for sharing more things

Contextmapping

A conversation stimulator is needed to be *really* together

Design goal

”

My design goal is to stimulate parents and young adult children to move away from routine talks during dinner by **showing interest in personal relevant topics of their family members.**

”

Interaction vision

Current interaction

Routinely
Superficial
Uninvolved
Unbalanced
Cozy

Desired interaction

Natural
Involved
Open
Surprising
Fun

Interaction vision

Current interaction

Routinely
Superficial
Uninvolved
Unbalanced
Cozy

Desired interaction

Natural
Involved
Open
Surprising
Fun

Like.. “Making an unexpected stop for a nice viewpoint when road tripping”

Ambiguous pictures and themes

There is a need for a
concrete starting point

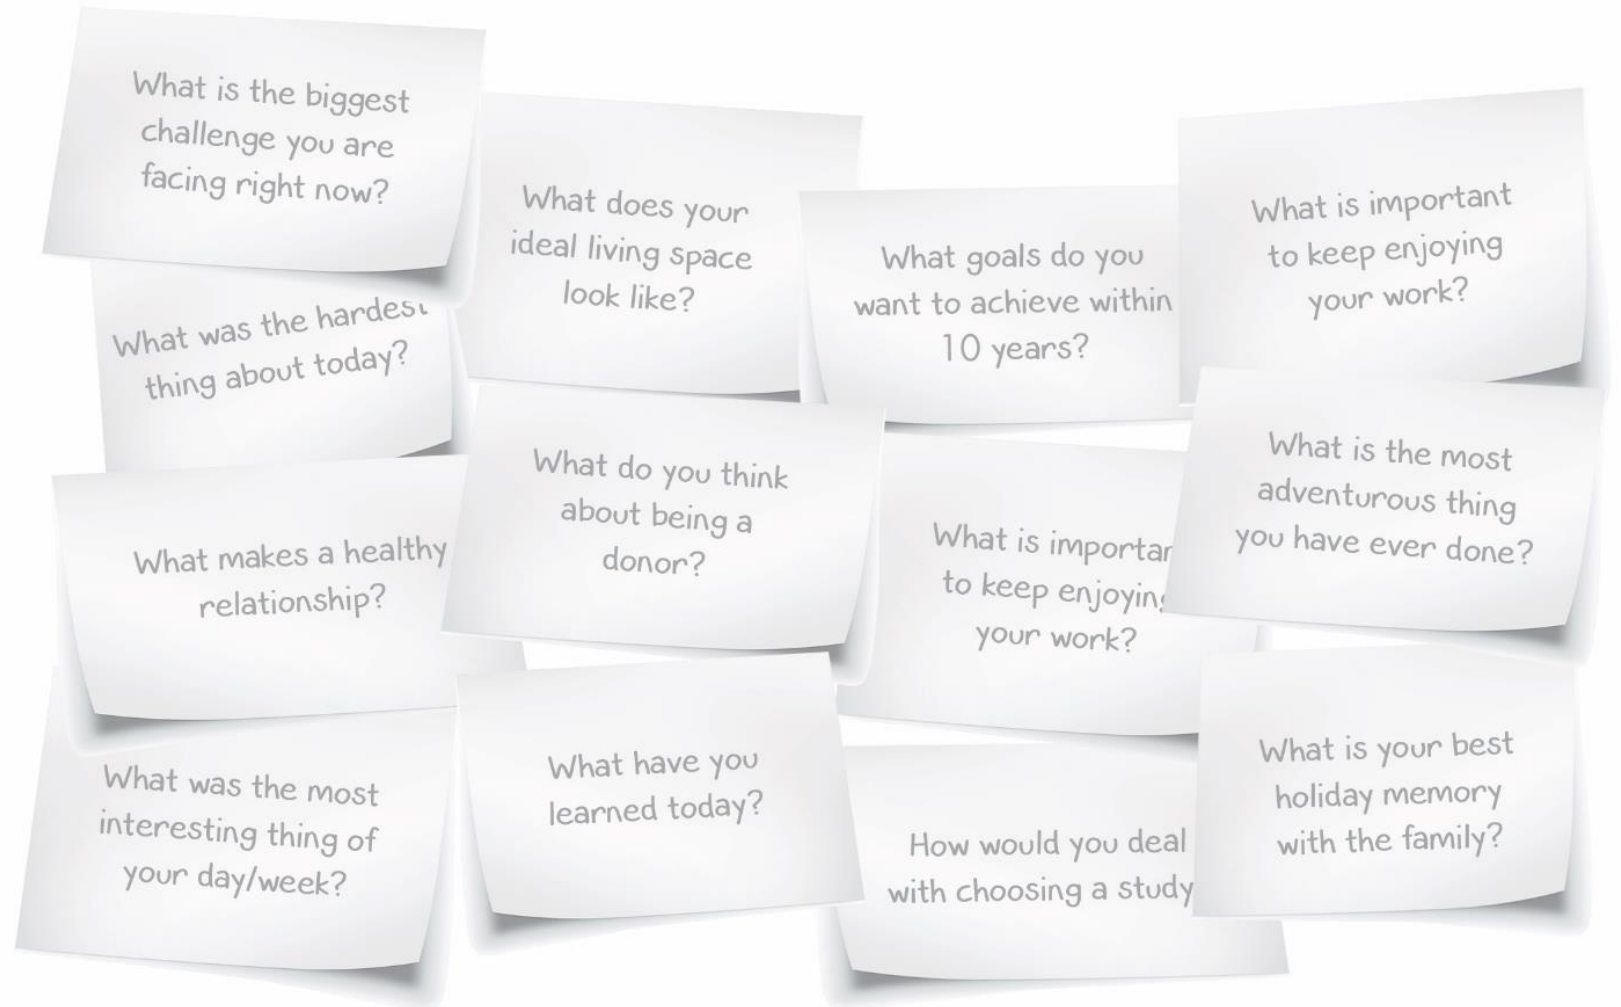

Question cards

There is a need for a concrete starting point

Cards with too direct questions do not result in a natural and fun interaction

Game with personal pictures

1. Take pictures related with your daily life
2. Guess who made it and what is on it
3. Talk about it

Game with personal pictures

Personal pictures bring in new and personal relevant topics and serve as a natural starting point for conversation

Game with personal pictures

Personal pictures bring in new and personal relevant topics and serve as a natural starting point for conversation

The game element makes everyone involved and makes it fun

Game with personal pictures | 2

Pictures should be related
with you and your daily life.
You should have a 'story'
about it

Game with personal pictures | 2

Pictures should be related with you and your daily life. You should have a 'story' about it

Discussing about the score system moves them away from the real purpose; having conversation

Game with personal pictures | themes

Reminders are useful for not forgetting to take pictures and family members like it

Raad & Praat

Maartje, leg nu je moment vast!

Raad & Praat

Waar ben je trots op? Leg het vast!

Game with personal pictures | themes

Reminders are useful for not forgetting to take pictures and family members like it

Reminders with themes make them think about new things to capture → new input for game

Raad & Praat

Maartje, leg nu je moment vast!

Raad & Praat

Waar ben je trots op? Leg het vast!

Different themes

Concrete themes lead to interesting stories, open themes create freedom
→ a mix works

Wat is een **opmerkelijk object** uit jouw dagelijks leven?
Leg het vast!

? IN THE PICTURE ?

Wat is een grote **uitdaging van jouw passie**?
Leg het vast!

? IN THE PICTURE ?

Wat maakt jou **blij**?
Leg het vast!

? IN THE PICTURE ?

Wat is voor jou een leuke **familieherinnering**?
Leg het vast of zoek een oude foto

? IN THE PICTURE ?

Different themes

Concrete themes lead to interesting stories, open themes create freedom
→ a mix works

Include themes in the game (guessing theme) results in interesting stories and more food for discussion

Wat is een **opmerkelijk object** uit jouw dagelijks leven?
Leg het vast!

? IN THE PICTURE ?

Wat is een grote **uitdaging van jouw passie**?
Leg het vast!

? IN THE PICTURE ?

Wat maakt jou **blij**?
Leg het vast!

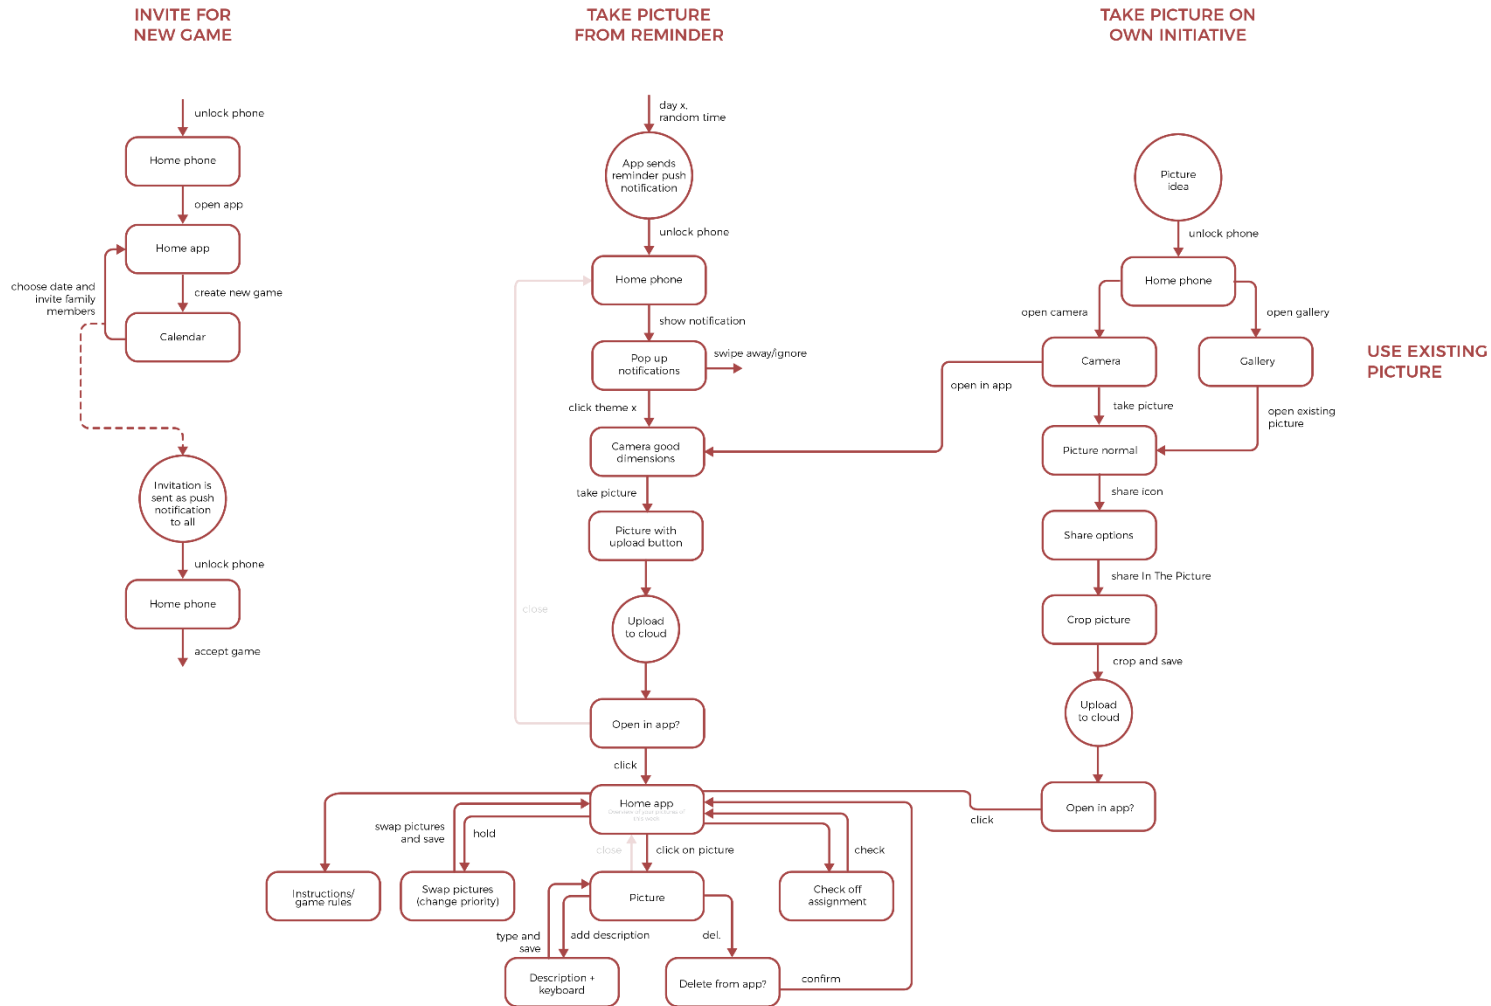

? IN THE PICTURE ?

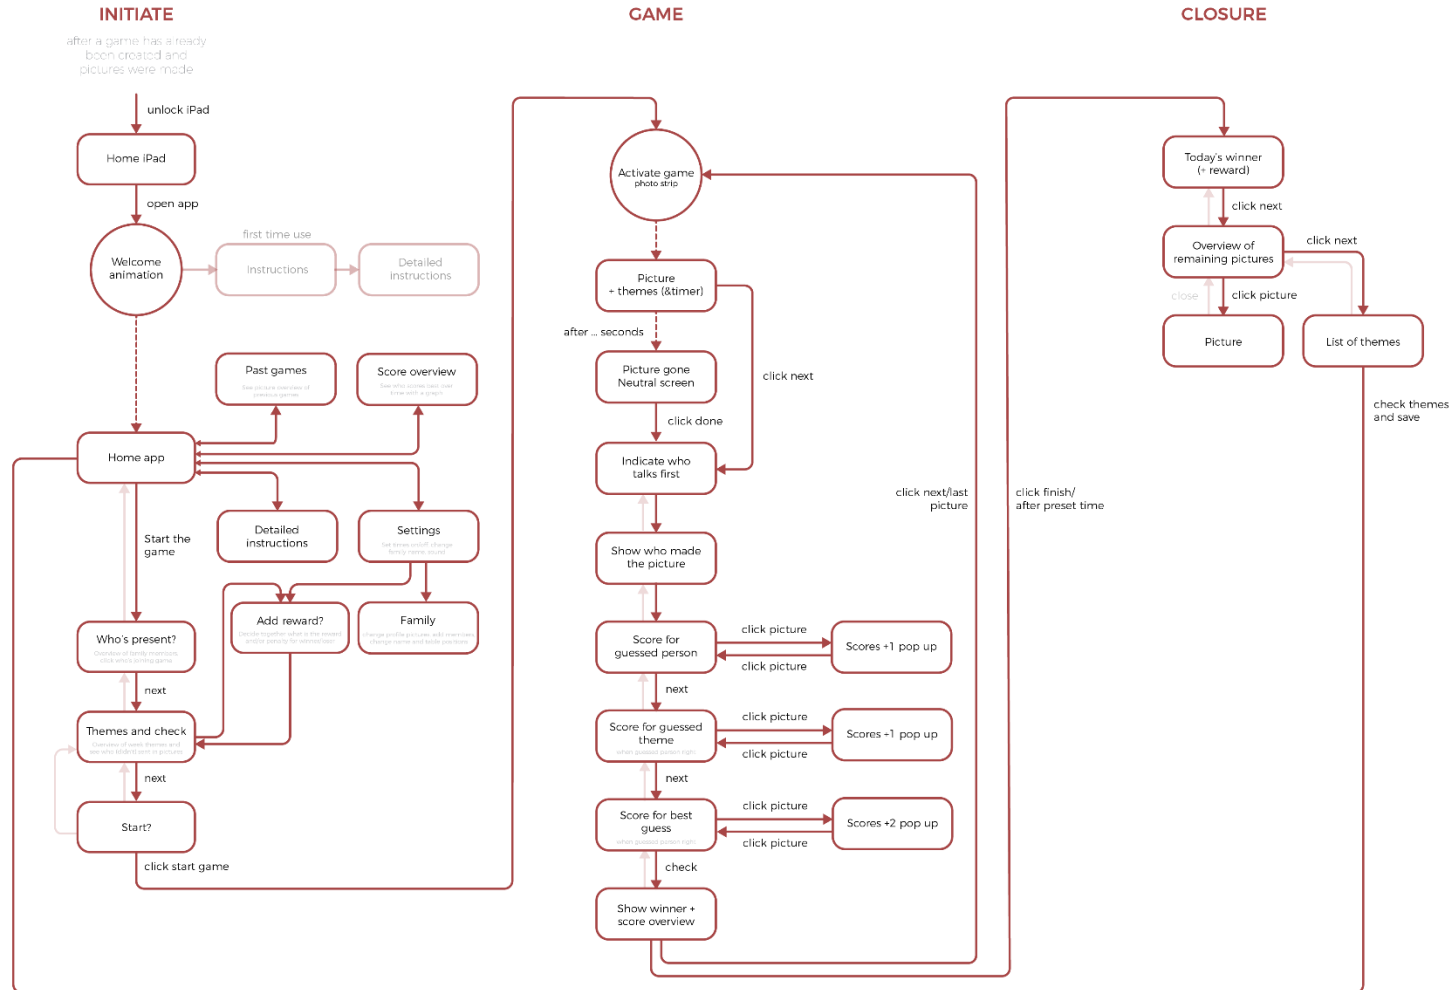

Wat is voor jou een leuke **familieherinnering**?
Leg het vast of zoek een oude foto

? IN THE PICTURE ?

Design flow and screens of apps

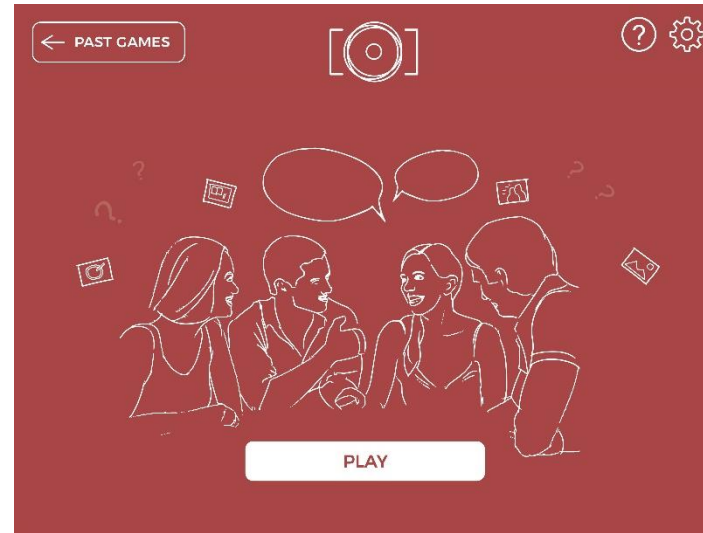

Design flow and screens of apps

Design flow and screens of apps

Try again with score system,
designed screens would
provide more guidance

Final evaluation test

Score system is a valuable addition (points for best story), because everyone does his best to come up with the best answer

Final evaluation test

"Apart from whether you win or not, you still have a very fun hour at the table."

"Shall we do it again next week?"

Design goal evaluation

Design goal

”

My design goal is to stimulate parents and young adult children to move away from routine talks during dinner by **showing interest in personal relevant topics of their family members.** ”

Pictures bring in new and interesting and **personal relevant** conversation **topics**.

The game element makes them **show** their **interest** in each other

"It felt really good when someone knew the picture was from me and why I took it. I found that nice to hear. But I also really liked it when I knew the answer very precisely, like 'ah I know that one, I know that person well'."

Interaction vision evaluation

Desired interaction

Natural

Involved

Open

Surprising

Fun

Personal pictures serve as an easy and **natural** starting point for a conversation.

"It feels very natural to have a deeper conversation because you can discuss around the pictures in front of you, and the pictures and themes are related with our real life."

Interaction vision evaluation

Desired interaction

Natural

Involved

Open

Surprising

Fun

The challenging element and the guessing makes everyone involved, pictures make them curious

"The people who guess right make sure you'll be seen, that they know you and that they're involved with you. And the people who guess wrong make the game funny."

Interaction vision evaluation

Desired interaction

Natural

Involved

Open

Surprising

Fun

The game makes them curious and open to hear each other's stories
The game is open because there are endless possibilities for content

"You can choose yourself where the game is going, because you choose what pictures you make."

Interaction vision evaluation

Desired interaction

Natural

Involved

Open

Surprising

Fun

Answers can be surprising when you didn't expect it.

The pictures are also surprising since you never know what's coming.

"Sometimes I didn't expect that someone knew something from you, which is very nice."

Interaction vision evaluation

Desired interaction

Natural

Involved

Open

Surprising

Fun

The game is much fun!

"It's obvious that this succeeded. We
had to laugh a lot!"

Final design

- Game box with materials
 - Cards
 - Markers
 - Cloths
- Game app (iPad/tablet)
- Phone app
